Communit

Community Updates for August 25, 2019

**Kendallvue’s first camping trip is this week with the fifth grade!**

Our camping trips will strengthen community, trust, and positive risk-taking within classrooms. These trips secure a strong foundation for a year of wonderful learning and growth. When placed in an unfamiliar setting, students depend and rely upon their peers and mentors to be successful.

The camping trip relies upon a low challenge and initiative course to help develop teamwork and problem-solving skills in the students throughout the school. Challenges presented to groups of students are intended to facilitate problem-solving and foster teamwork and are therefore used regularly throughout the school year with qualified facilitators.

I can’t wait to meet them all there after school for dinner!

---

**Flex Days:** Our second Flex day will be tomorrow, Monday 8/25/2019. If you are unsure of your time then please email your child’s teacher. These are great days for teachers to learn more about your children and how to best teach them.

---

**Social Media:** Please make sure that you like the correct Facebook page so you don’t miss out on all of the photos from the camping trips and just throughout any school day. Great way to stay informed about what is happening at school!
